CAL STATE  
**EAST BAY**

**Welcome Cal State East Bay to the NCMCA!**

The goals of the B.S. degree in Construction Management are to prepare effective managers for public and private construction projects, to prepare the workforce required by the construction industry, and to enable high school graduates, transfer students and working professionals to assume leadership roles in the construction industry. Special attention is given to promote students participating in internships and working professionals with classes offered mainly at times convenient to students

*Dr. Fadi Castronovo* - CSEB Faculty Advisor
